

COVID-19 Vaccine Distribution in Illinois

Following the recommendation of state, federal and other public health professionals, the first COVID-19 vaccines will be dedicated to hospital and health care workers in the 50 counties in Illinois with the highest death rates per capita.

The vaccines will be shipped to ten Regional Hospital Coordinating Centers who will then coordinate distribution to these counties:

- | | | |
|---------------|-------------------|-----------------|
| 1. Greene | 18. Macon | 35. Saint Clair |
| 2. Wayne | 19. Warren | 36. Dewitt |
